

EN 303-5, class 3

Price list of LADAN wood gasification boilers

LADAN 18kW

Wood gasification boiler (pyrolitic) of output range 8 – 20kW with an electronic regulation of circulation pump and possibility to have the room thermostat control.

Pressure ventilator. Bulk loading chamber /75 litres/ made of 6mm boiler steel plate.

Guarantee for boiler body – 2 years.

Price: £1,203

18kW made from stainless steel 4mm, Price : £2,069

LADAN 25kW

Wood gasification boiler (pyrolitic) of output range 12 – 27kW with an electronic regulation of circulation pump and possibility to have the room thermostat control.

Pressure ventilator. Bulk loading chamber /113 litres/ made of 6mm boiler steel plate.

Guarantee for boiler body – 2 years.

Price: £1,293

25kW stainless steel 4mm, Price: £2,258
--

LADAN 40 kW

Wood gasification boiler (pyrolytic) of output range 20 – 42 kW with an electronic regulation of circulation pump and possibility to have the room thermostat control.

Pressure ventilator. Bulk loading chamber / 170 litres/ made of 6mm boiler steel plate.

Guarantee for boiler body – 2 years.

Price: £1,781

40kW stainless steel 4mm,

Price: £2,717

Boiler 60kW:

Price: £2,493

60kW stainless steel 4mm,

Price: £3,413

Brief description of boiler

- boiler is designed for the heating of the cottage / family house, smaller manufacturing plants, premises, workshops, etc.
- fuel to be used – dry wood
- approx. continuous burning 8 - 12 hours
- high efficiency, pressure ventilator
- moder desing
- low fuel consumption
- possibility of heating temperature or tempering set up
- regulation of ventilator revolutions
- minimum of ash
- automatic boiler turn off at fuel burn-out
